PROFESSIONAL SUMMARY

Results-driven Data Analyst and Software Engineer specializing in transforming complex, unorganized datasets into high-impact analytics dashboards, automated ETL pipelines, and robust full-stack web applications.

Proficient across Python, SQL, modern TypeScript/Next.js, and BI reporting tools.

CORE TECHNICAL COMPETENCIES

- Data Analytics & BI: Python (Pandas, NumPy), SQL (PostgreSQL, MySQL), Power BI, Tableau, Excel/Spreadsheets
- Software Development: TypeScript, JavaScript, React, Next.js, Node.js, Express, RESTful APIs, HTML5/CSS3
- Databases & Cloud: PostgreSQL, Supabase, Git, GitHub, Vercel, Linux/CLI, Data Modeling & ETL Automation

FEATURED PRODUCTION PROJECTS

Retail Sales & Inventory Forecasting Engine

Tech: Python, Pandas, PostgreSQL, React, Next.js

- Engineered automated ETL pipeline processing 100k+ transactional records to forecast reorder thresholds.
- Reduced inventory stockout risk by 28% through seasonal moving-average and demand prediction algorithms.

Healthcare Patient Outcome Analytics Dashboard

Tech: Python, SQL, PostgreSQL, Interactive Data Visualizations

- Cleaned and standardized clinical admission records, surfacing patient length-of-stay and readmission rates.
- Delivered high-performance dashboards adopted by stakeholders for resource planning and triage monitoring.

E-Commerce Operations & Logistics Performance Hub

Tech: SQL, Power BI, Python, Automated Reporting Pipelines

- Built central analytics command center tracking order fulfillment cycle times and carrier transit reliability.
- Automated daily KPI summary reports, eliminating 6+ hours of manual spreadsheet compilation weekly.

EDUCATION & CERTIFICATIONS

- Google Data Analytics Professional Certificate (SQL, R, Spreadsheets, Tableau)
- Meta Full-Stack Web Development Certificate (React, Modern JavaScript, APIs)
- Bachelor of Science in Computer Science / Engineering Foundation

WORK PREFERENCE & AVAILABILITY

Available for full-time, contract, and consulting roles. Open to remote worldwide and hybrid opportunities.
